PEXLOCK SYSTEM

Until now, the PEX industry has been limited in its ability to grow beacuase of the need for special expensive tooling required by the metal PEX connection clamps. With the Pexlock System clamp, anyone can plumb with PEX using just a pair of common household pliers.

All PEXLOCK part numbers come retail bagged fitting plus rings.

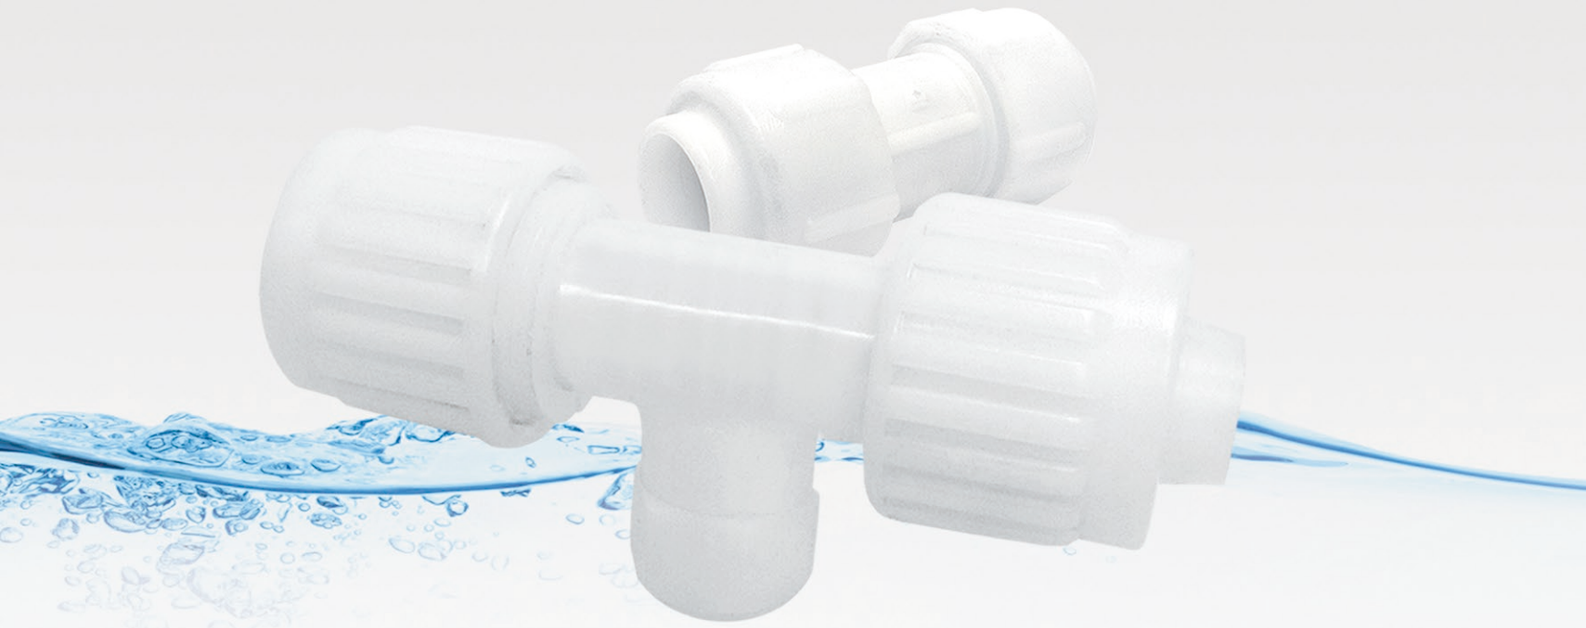
PEXLOCK Flair-It

ECOPOLY MANIFOLD PERT TUBING Hydrowelding

Flair-It™

PRODUCED BY THC



FLAIR-IT fittings are constructed of durable Polyoxmethylene (POM) and are compatible with PEX and PB. The patented design consists of a nut and flared insert and requires no tools. The fittings push against the ID and OD of the pipe, creating a strong long-term seal. Flair- It fittings are available in 3/8"- 3/4" and are stocked in bulk and barcoded versions. Must be ordered in lots of ten. Starter kits are also available. Valves are directional.
